SCHOOL PLANNER

*Arise, awake and stop not till
the goal is achieved*

Vision

"Education is the manifestation of the divine perfection existing in man." - Swami Vivekananda

The UNESCO Report-Jacques Delors committee 1996 stated the four pillars of education viz:

- Learning to do
- Learning to learn
- Learning to be
- Learning to live with others

Imploring on these lines Sunrise Modern School envision a robust, vibrant and holistic education, grooming children into leaders in the field of their endeavours and world class global citizens open to modernisation with due respect to Indian Cultural heritage. At Sunrise Modern School, we believe learning is limitless. It goes beyond the covers of a book to span a student's overall personality development. Education is talent picturized i.e. it is a thought or a noble idea converted into reality. Education should make the child accommodate himself in the new socio economic order of the information era even at the cost of sacrificing his interest for the welfare of the nation and mankind.

Aim and Philosophy

We want our pupils to become responsible adults, having achieved their academic potential and realised the full worth of others.

Ravi Yadav
Managing Director
